

**KWL EC 700 D**

**Dimensions KWL EC 700 D**

Ultra-flat ventilation units with heat recovery for compact and space-saving ceiling installation.

With a wide range of residential, commercial and industrial applications. Independently certified hygiene properties and energy efficiency according to VDI 6022 and the passive house standard. Unit construction and unit components fulfil the general hygiene requirements according to VDI 6022.

Available in various comfort and equipment variants.

**■ Casing**

Double-walled, made of galvanised steel sheet, with 30 mm heat and sound insulation on all sides. The inspection openings for filter replacement are accessible at the bottom of the unit without tools.

Ceiling installation via vibration-damping fastening elements included in the delivery.

**■ Heat exchanger**

Large cross counterflow heat exchanger made of aluminium with heat recovery efficiency of up to 90 %. Dismantling possible in just a few simple steps.

**■ Fans**

Two low-noise high-performance EC fans with backward-curved impellers guarantee maximum energy efficiency. The special control technology enables constant volume control or constant pressure control.

**■ Ducts**

Installation-friendly connection of intake, exhaust, extract and supply air through pipe or duct system NW 250 mm.

**■ Condensate connection**

A separate condensate tray below the heat exchanger facilitates maintenance work on the unit. Drain connectors on the side next to the terminal box. Ball siphon included in delivery. On-site connection to drain pipe.

**■ Air filter**

Standard equipment: Clean intake air supply via ISO ePM<sub>1</sub> 55% filter (F7). The heat exchanger requires a ISO ePM<sub>10</sub> 50% filter (M5) on the extract air side. All filters are pressure-controlled and exchangeable in just a few simple steps.

**■ Summer operation**

Standard equipment with automatic bypass function for maximum comfort.

**■ Heat exchanger anti-icing protection**

An electric preheating element heats the intake air at very low outdoor temperatures. Thus, it prevents the heat exchanger from icing up and guarantees its safe functioning and optimal heat recovery during the entire heating period.

**■ Power control**

The comfort control element with graphic display and user-friendly menu navigation, which is included in the delivery, enables the following functions:

- Control directly via touchscreen.
- Freely definable operating points within the entire range of the performance curve.
- Selection between constant volume control or constant pressure control.
- Demand-oriented ventilation using CO<sub>2</sub>, VOC (mixed gas) or humidity sensor.
- Initial commissioning (automatic determination of the system performance curve).
- Control of external shutters.
- Connection of a fire alarm contact.
- Weekly or daily programme.
- Pressure monitoring of filter contamination.
- Indication of necessary filter replacement, operating status, error messages.
- Different access levels. The ventilation unit is alternatively controllable via ModBus (RS 485, TCP/IP).

**■ Electrical connection**

Easily accessible terminal box on the side of the casing. The isolator/main switch can be controlled from below the unit for maintenance work and it can be locked with a padlock to prevent unauthorised access.

**■ Post-heating**

**Type KWL EC Pro WW**

The integrated warm water heating element guarantees the convenient and energy-efficient post-heating of supply air. The setpoint temperature is simply set in the control element. The hydraulic unit (Type WSH HE 24 V (0-10 V), accessories) is recommended for controlling the warm water heat exchanger.

**■ Reference**

The ventilation unit design according to VDI 6022 requires the use of VDI 6022-compliant air filters. The use of original replacement air filters is therefore mandatory.

**■ Replacement air filter**

- 1 pc. ISO ePM<sub>10</sub> 50% (M5) ELF-KWL 700 D/5 VDI No.04189
- 1 pc. ISO ePM<sub>1</sub> 55% (F7) ELF-KWL 700 D/7 VDI No.04191

**■ Control lines**

- ALB EC-SK 20 20m** No. 06816
  - ALB EC-SK 40 40m** No. 06817
- 8-pin AWG24 twisted pair cable for the control element.

■ Included in delivery:

**Surface comfort control element**

User-friendly control via self-explanatory graphic elements with clear text directly on the touchscreen. Control line (10 metres) included in delivery, other lengths available (ALB EC-SK, accessories).  
Dim. mm (WxHxD) 115x80x25

Control element with connection cable (10 m) included in the scope of delivery. Dim. mm (WxHxD) 115 x 80 x 25

■ Accessories for Type Pro WW

**Hydraulic unit**

**WHSH HE 24 V (0-10 V) No. 08318**

Controls the water temperature of the PWW heating element using a three-way valve actuator 24 V (0-10 V) and thus the heat output transferred to the air. Delivered as a complete unit, incl. VL- /RL temperature display, circulating pump and flexible connection hoses.

■ Accessories for all types

**Room sensor – Air quality**

**AIR1/KWL-VOC 0-10V** No. 20250

**AIR1/KWL-CO2 0-10V** No. 20251

**AIR1/KWL-FTF 0-10V** No. 20252

For measuring the CO<sub>2</sub>, mixed gas (VOC) concentration or relative room air humidity. A maximum of one sensor can be connected.  
Dim. mm (W x H x D) 85 x 85 x 27

**Room sensor – Temperature**

**TFR-ALB/KWL** No. 07277

For measuring the room temperature and controlling the ventilation unit according to the set value. Incl. 20 m control line. Maximum total of one sensor can be connected.  
Dim. mm (W x H x D) 80 x 80 x 25

**Transition piece – Symmetrical**

**KWL-ÜS 700 D** No. 04206

From unit flange to round duct systems.

**Flexible connecting sleeve**

**FM 250** No. 01672

For acoustic decoupling, incl. 2 pcs. hose clamps.

**Flexible connector**

**FVR 250** No. 40831

Flexible connector round (uninsulated), with lip seals on both sides, for connection to pipe systems.

Accessories for FVR:

**Potential equalisation cable**

**PAK M8** No. 40812

**Duct shutter, motorised**

**RVMD 250/230V** No. 40252

Prevents cold draughts when the unit is at a standstill. Can be installed horizontally and vertically in any direction and with attached spring return motor (outside of air flow).
