

# **RR EC 200**

#### **Dimensions RR EC 200**

#### Dim. in mm

# Energy-saving EC circular duct fans for the delivery medium and small air volumes against high resistances.

Specifically designed for direct insertion in duct systems. High pressure performance for overcoming friction losses, deflection losses and aggregate resistances.

For various applications in commercial, industrial and residential areas.

# Special features

- Highly efficient EC motor for the lowest operating costs.
- Low space requirement and minimal installation costs due to linear throughflow.
- No need for elaborate deflectors. Connectors on inlet and outlet
- side correspond to standard duct Ø.
- Performance adjustment through 100% speed control.
- Can be used in any position.
- Wide range of accessories.
- Aerodynamically optimised casing design.

#### **Common features RR EC and SVR EC**

## Drive

Energy-saving, speed-controllable EC external rotor motor in protection category IP44 with the highest level of efficiency. Maintenance-free and radio interference-free, ball bearing mounted.

SlimVent - Slimline EC space saver w/ retractable motor-impeller unit.

**SVR EC 200** 

#### Motor protection

Integrated electronic temperature monitoring system for EC motor and electronics.

#### Installation

No restrictions in any position (horizontal, vertical, diagonal) through corresponding installation for supply or extract ventilation. Installation in duct system, preferably away from the room to be ventilated for less noise.

# **Description RR EC**

# Casing

Made of galvanised steel sheet, robust for harsh operating conditions. Inlet and outlet side connection dimensions correspond to standard duct Ø.

#### Power control

Continuously variable speed control with internal (delivery) or external potentiometer or continuously variable speed control with universal control system (see table). Performance levels are shown in the performance curve as an example.

# Electrical connection

Terminal box (IP54) on outside of casing.

#### Impeller

Centrifugal, with backward curved blades made of plastic. Dynamically balanced together with motor for low-noise operation, high level of efficiency.

# Protection category

Protection category IP54 through inlet and outlet-side installation in a duct system which prevents the ingress of rainwater.

# **Description SVR EC**

# Casing

Flat casing in compact design made of galvanised steel sheet. Connectors and lip seal on inlet and outlet side for standard duct Ø.

The retractable motor-impeller unit allows inspection and cleaning without dismantling components. The swivelling range must be considered for the inspection opening.

# Power control

Continuously variable speed control with internal (delivery) or external potentiometer or continuously variable speed control with universal control system (see table). Performance levels are shown in the performance curve as an example.

# Electrical connection

Terminal box (IP54) on external cable.

#### Impeller

Energy-saving centrifugal impeller with backward curved blades made of high-quality plastic. Dynamically balanced together with motor for low-noise operation.

# Protection category

IP44 with connected duct system.

#### Noise

- The total level and range are specified above the performance diagram for:
- Case-radiated sound power
- Inlet side sound power
  - Outlet side sound power. The case-radiated noise as sound pressure at 1 m (free field conditions) is also specified in the type table and the table below the performance curve.

# Accessories

# Pipe clamp connectors

**BM 200** Ref. no. 05078 For structure-borne noise-free connection of fan and piping and for suspension (1 set = 2 pcs). Mount ventilation duct and fan connector at a distance and fold sleeve over during installation.

#### Mounting bracket for RR EC MK 4 Ref. no. 05824

Ref. no. 08

# External wall shutter

VK 200 Ref. no. 00758 Made of plastic, light grey.

External wall cover grilleRAG 200Ref. no. 00750Made of plastic, light grey.

# Protection grille

**SGR 200** Ref. no. 05066 For inlet and outlet side installation. Made of galvanised steel.

# Duct shutter

RSK 200 Ref. no. 05074 Automatic, made of metal.

#### Flexible cross talk silencer

**FSD 200** Ref. no. 00679 Made of aluminium pipe with double-sided plug-in connectors. Sound insulation lining 50 mm thick, installation length 1 m.

#### Air filter box

LFBR 200 Coarse 70%\* 08579 LFBR 200 ePM1 50%\* 08533 Air filter with large surface area, for installation in pipeline.
