

SB EC 125

Virtually silent with high volume output and pressure performance. Ideal for cleaning and inspection.

SVS EC 125

Lowest installation height. Ideal for limited installation spaces. With sound-insulating mineral wool lining for particularly low-noise operation.

Common features SilentBox SB EC and SlimVent SVS EC

Installation

No restrictions in any position (horizontal, vertical, diagonal) through corresponding installation for supply or extract ventilation. Mounting bracket included in delivery.

Drive

Energy-saving, speed-controllable EC external rotor motor in protection category IP44 with the highest level of efficiency. Maintenance-free and radio interference-free, ball bearing mounted. Motor and impeller dynamically balanced for low-noise operation.

Power control

Continuously variable speed control with internal (delivery) or external potentiometer or continuously variable speed control with universal control system

(see table). Performance levels are shown in the performance curve as an example.

Motor protection

Integrated electronic temperature monitoring system for EC motor and electronics.

Noise

See page 417

Description SilentBox EC

Casing

Designed as a silencer. Equipped with abrasion-resistant, sound-absorbing mineral fibre boards (50 mm). Removable cover with locking clamp. Freely accessible fan. Removable motor-impeller unit, the removal area must be considered. Inlet and outlet side connectors with rubber lip seal corresponds to standard duct Ø. All parts made of galvanised steel sheet.

Impeller

With backward curved blades. Inlet via nozzle. SB EC 125 A forward curved impeller in aerodynamically optimised volute casing, galvanised steel sheet.

Electrical connection

Terminal box (IP54) mounted to external cable.

Protection category

IP44 (SB EC 125 A IP54) with connected duct system.

Description SlimVent SVS EC

Casing

Extremely flat casing with sound-insulating, over 50 mm thick mineral wool lining and glass fibre surface. The acoustic box placed in front of the fan wheel significantly reduces the inlet-side noises. The radiated noises are reduced to a lesser extent (see noise data above the

performance diagrams).

The retractable motor-impeller unit allows inspection and cleaning without dismantling the system components. The removal area of the motor-impeller unit must be considered.

Impeller

Energy-saving centrifugal impeller with backward curved blades made of high-quality plastic.

Electrical connection

Terminal box (IP54) mounted to external cable.

Protection category

IP44 with connected duct system.

Accessories

Flexible connecting sleeve

FM 125 Ref. no. 01682

Includes 2 hose clamps; for installation between fan and duct system. Prevents structure-borne noise transmission and bridges installation tolerances.

2 pcs required for inlet and outlet side application.

External wall shutter

VK 125 Ref. no. 00857

Automatic made of plastic, white.

External wall cover grille

G 160 Ref. no. 00893

Made of plastic, white.

Protection grille

SGR 125 Ref. no. 05064

For inlet and outlet side installation. Made of powder-coated steel wire.

Duct shutter

RSKK 125 Ref. no. 05107

Automatic, made of plastic.

Flexible cross talk silencer

FSD 125 Ref. no. 00677

Made of aluminium pipe with double-sided plug-in connectors. Sound insulation lining 50 mm thick, installation length 1 m.

Air filter box

LFBR 125 Coarse 70%* 08577

LFBR 125 ePM1 50%* 08531

Air filter with large surface area, for installation in pipeline.

Electric heating element
