

### Efficiency class

В

### SB 200 C + accessories\*

Virtually silent with high volume output and pressure performance. Ideal for cleaning and inspection.

### **Dimensions SB 200**

### Common features SB and SVS

### Installation

No restrictions in any position (horizontal, vertical, diagonal) through corresponding installation for supply or extract ventilation (exception: SVS must not be installed with the retractable motor-impeller unit upward).

### Motor

Enclosed, ball bearing mounted external rotor motor with humidity protection, insulation class F, for continuous operation, maintenance-free and radio interference-free.

### **Description SilentBox**

### Casing

Designed as a silencer. Equipped with abrasion-resistant, soundabsorbing mineral fibre boards (50 mm). Removable cover with locking clamp. Freely accessible

fan. Removable motor-impeller unit, the removal area must be considered. Inlet and outlet side connectors with rubber lip seal corresponds to standard duct Ø. All parts made of galvanised steel sheet.

#### Impeller

With backward curved blades made of high-quality plastic. Inlet via nozzle.

### Electrical connection

Terminal box (IP54) mounted to external cable (aprx. 60 cm long).

### Motor protection

Through built-in thermal contacts wired in series to the winding, which automatically activated and deactivate again after cooling.

### Power control

From 0 – 100 % possible using electronic controller or step

Lowest installation height. Ideal for limited installation spaces. With sound-insulating mineral wool lining for particularly low-noise operation.

### Dimensions SVS 200

**SVS 200** 

transformer (see table).

Protection category IP44.

### **Description SlimVent SVS**

Casing

Extremely flat casing with soundinsulating, over 50 mm thick mineral wool lining and glass fibre surface. The acoustic box placed in front of the fan wheel significantly reduces the inlet-side noises. The radiated noises are reduced to a lesser extent (see noise data above the performance diagrams).

The retractable motor-impeller unit allows inspection and cleaning without dismantling the system components. The removal area of the motor-impeller unit must be considered.

### Impeller

Energy-saving centrifugal impeller with backward curved blades made of high-quality plastic. Dynamically balanced for low-noise operation.

### Electrical connection Terminal box (IP54) mounted to

external cable.

### Motor protection

Through built-in thermal contacts wired in series to the winding, automatic deactivation and reactivation after cooling.

Power control From 0 - 100 % using electronic controller or step transformer (see table).

# Protection category

IP44 with connected duct system.

1) Transformer control units must be provided in noise-relevant cases. Electronic phase angle control can cause disturbing magnetisation humming.

### Performance curves SB 200 C

### Performance curves SB 200 D

## Performance curves SVS 200 K

### Noise

- The total level and range are specified above the performance diagram for
- Case-radiated sound power. Inlet/outlet side sound power in dB(A).
- □ The case-radiated noise as sound pressure at  ${\bf 1}~{\bf m}$  (free field conditions) are also specified in the type table.

# Centrifugal circular duct fans Acoustic Line SilentBox® SB and SlimVent SVS, Ø 200 mm

### Accessories

### Flexible connecting sleeve

FM 200 Ref. no. 01670 Includes 2 hose clamps; for installation between fan and duct system. Prevents structure-borne noise transmission and bridges installation tolerances. 2 pcs required for inlet and outlet side application.

### External wall shutter

VK 200 Ref. no. 00758 Automatic made of plastic, light grey.

# External wall cover grille

RAG 200 Ref. no. 00750 For placement in front of air inlet and outlet openings in facades. Made of plastic, light grey.

### Protection grille

SGR 200 Ref. no. 05066 For inlet and outlet side installation. Made of galvanised steel.

### Duct shutter

**RSK 200** Ref. no. 05074 Automatic, made of metal.

### Flexible cross talk silencer

FSD 200 Ref. no. 00679 Made of aluminium pipe with double-sided plug-in connectors. Sound insulation lining 50 mm thick, installation length 1 m.

### Air filter box

LFBR 200 Coarse 70%\* 08579 LFBR 200 ePM1 50%\* 08533 Air filter with large surface area, for installation in pipeline.

### Electric heating element

EHR-R 1.2/200 1.2 kWNo. 09436 EHR-R 2/200 2.0 kWNo. 09437 EHR-R 5/200 5.0 kWNo. 08711 - with integrated temp. control EHR-R 5/200 TR 5.0 kWNo. 05295 Room or duct sensor (TFK/TFR, Accessories) required.

Temperature control system for electric heating element EHR-R EHS Ref. no. 05002

Warm water heating element WHR 200 Ref. no. 09482 Compact heat exchanger for installation in duct system.

Temperature control system for warm water heating element WHST 300 T38 No. 08817
