

RR 125

RRK 125

SVR 125

Impeller

Centrifugal, with backward curved blades made of plastic. directly pressed on motor and dynamically balanced as a unit. Low-noise, high level of efficiency.

Protection category

IP44

Description SVR

Casing

Flat casing in compact design made of galvanised steel sheet. Connectors and lip seal on inlet and outlet side for standard duct Ø. The retractable motor-impeller unit allows inspection and cleaning without dismantling components. The swivelling range must be considered for the inspection opening.

Power control

From 0 – 100 % possible using electronic controller or step transformer (see table) or two level operation with type DS 2/2 (accessories).

DS 2/2 Ref. no. 01267

Electrical connection

Terminal box (IP54) mounted to external cable.

Impeller

Energy-saving centrifugal impeller with backward curved blades made of high-quality plastic. Dynamically balanced for low-noise operation.

Protection category

IP44 with connected duct system.

Noise

The total level and range are specified above the performance diagram for

- ☐ Case-radiated sound power
- ☐ Inlet/outlet side sound power in dB(A).
- ☐ The case-radiated noise and inlet/outlet side air noise as sound pressure at 1 m (free field conditions) are also specified in the type table.

Dimensions RR 125

Dimensions RRK 125

Dimensions SVR 125

For the delivery of medium and small air volumes against high resistances.

Specifically designed for direct insertion in duct systems. High pressure performance for overcoming friction losses, deflection losses and aggregate resistances. For various applications in commercial, industrial and residential areas.

Special features

- ☐ Low space requirement and installation costs due to linear throughflow.
- ☐ No need for elaborate deflectors.
- ☐ Connectors on inlet and outlet side correspond to standard duct Ø.
- ☐ Performance adjustment through 100% speed control.
- ☐ Can be used in any position.
- ☐ Wide range of accessories.
- ☐ Aerodynamically optimised casing design.

Common features

Motor

Enclosed, ball bearing mounted external rotor motor with humidity protection, insulation class F, for continuous operation and maintenance-free.

Motor protection

Through built-in thermal contacts wired in series to the winding, automatic deactivation and reactivation after cooling.

Installation

No restrictions in any position (horizontal, vertical, diagonal) through corresponding installation for supply or extract ventilation (exception: SVR must not be installed with the retractable motor-impeller unit upward). Installation in duct system, preferably away from the room to be ventilated for less noise.

Description RR

Casing

Made of galvanised steel sheet, robust for harsh operating conditions. Inlet and outlet side connection dimensions correspond to standard duct Ø.

Power control

From 0 – 100 % possible using electronic controller or step transformer (see table) or two level operation with type DS 2/2 (accessories).

DS 2/2 Ref. no. 01267

Electrical connection

Terminal box (IP54) on outside of casing.

Impeller

Centrifugal, with backward curved blades made of plastic. directly pressed on motor and dynamically balanced as a unit. Low-noise, high level of efficiency.

Protection category

Protection category IP44 through inlet and outlet-side installation in a duct system which prevents the ingress of rainwater.

Description RRK

Casing

All components made of corrosion-resistant and impact-resistant plastic. Six built-in guide blades additionally increase the level of efficiency. Colour: Silver-grey.

Power control

From 0 – 100 % possible using electronic controller or step transformer (see table).

Electrical connection

Terminal box (IP44) on outside of casing.

Accessories

Pipe clamp connectors

BM 125 Ref. no. 05076
For structure-borne noise-free connection of fan and piping and for suspension (1 set = 2 pcs). Mount ventilation duct and fan connector at a distance and fold sleeve over during installation.

Mounting bracket for RR

MK 4 Ref. no. 05824

Mounting bracket for RRK

MK 1 Ref. no. 05821

Made of galvanised steel sheet.

External wall shutter

VK 125 Ref. no. 00857

Automatic made of plastic, white.

External wall cover grille

G 160 Ref. no. 00893

Made of plastic, white.

Protection grille

SGR 125 Ref. no. 05064

For inlet and outlet side installation. Made of powder-coated steel wire.

Duct shutter

RSKK 125 Ref. no. 05107

Automatic, made of plastic

Flexible cross talk silencer

FSD 125 Ref. no. 00677

Made of aluminium pipe with double-sided plug-in connectors. Sound insulation lining 50 mm thick, installation length 1 m.

Air filter box

LFBR 125 Coarse 70%* 08577

LFBR 125 ePM1 50%* 08531

Air filter with large surface area, for installation in pipeline.

Electric heating element
