

GF and VS

Dimensions GF and VS

■ **Counter flange GF**

Flange frame made of galvanized steel sheet, which is dimensionally matched to the rectangular duct fans and their accessories, for rectangular duct connection.

■ **Connector VS**

Flexible rectangular duct connection with double-sided flange frame made of galvanized steel sheet and circumferential sealing lip; tightness according to VDI 3803, temperature resistance $-10\text{ }^{\circ}\text{C}$ to $+80\text{ }^{\circ}\text{C}$. Central part made of elastic sleeve made of fabric. Dimensionally matched to the rectangular duct fans. In order to prevent structure-borne noise transmission and to compensate for installation tolerances, the connectors are mounted on the inlet side and outlet side between the fan and air duct. Types VS Ex are available for explosion-proof rectangular duct fans.

JVK

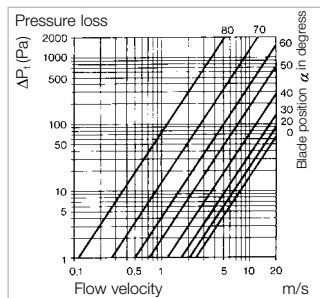

Dimensions JVK

■ **Multi-leaf dampers JVK**

Frame casing with double-sided connection flanges made of galvanized steel sheet. Dimensionally matched to the rectangular duct fans. Blades designed as hollow parts. Axles mounted in plastic, synchronously adjustable with external adjusting lever. Adjusting mechanism also outside of the air flow and thus protected against malfunctions due to contamination. The multi-leaf dampers cause an additional pressure loss, which must be considered when dimensioning the system and can be seen in the adjacent diagram. Note the blade position. Only install with horizontal blade position.

STM 10 / STM 2P

■ **Accessories**

Shutter servomotor

STM 10 230 V Ref. no. 08791
Shutter servomotor for the electrical opening and closing of the shutters JVK. Installation in any position by attaching the terminal connections (for \varnothing 8–26 or \square 8–26 mm) and fixation with enclosed anti-twist catch. Shutter position adjustment possible by pressing the gear disengaging button. Two-position control with signal contacts in positions “open” and “closed”. Shutter position indicated on scale (0–95°).

Auxiliary switch

STM 2P Ref. no. 08794
The shutter servomotor STM 10 230 V can also be operated with an auxiliary switch module. Two adjustable micro switches indicate the switch position. The adjustable angle positions can be changed. Position indication via adjusting ring (mechanical, attachable).

■ **Technical data**

Supply voltage	100–240 VAC
Frequency	50/60 Hz
Torque	10 Nm
Rotation angle	0 to 95°
Operation	2.5 W
Runtime (open/closed)	150 s
Clockwise/anticlockwise	switchable
Ambient temp.	-30 to $+50\text{ }^{\circ}\text{C}$
Protection category	IP54
Protection class	II
Dim. mm	W 80 x H 124 x D 62
Weight approx.	0.75 kg
Wiring diagram no.	1087
