

AVD DK 900

Dimensions AVD DK 900

All dimensions in mm

Dim. B see table

- **Casing**
 With motor bracket made from galvanised sheet steel.
- **Impeller**
 Hub and blades made of corrosion-resistant aluminium alloy. 10 aerodynamically profiled blades in combination with the guide vane achieve maximum efficiency and pressure ratings. Dynamically balanced, quality level 6.3 for low-vibration operation. Blades factory adjustable, see type overview for maximum pitch angle. Explosion-proof types: 5 or 7 blades made of plastic, dynamically balanced.
- **Motor**
 Directly driven by efficient IE3

three-phase standard motor. Pole-switching fans with IEC standard motor. Protection class IP55, insulation class F. (Explosion-proof types differ)

- **Motor protrusion**
 The protrudes dimension B in mm of the motor to the casing must be observed according to the type table.
- **Motor protection**
 All types (except pole switching and explosion proof) have PTC resistors and must be protected by the following full motor protection devices:
 MSA, Ref. no. 01289
 All other types must be protected by a conventional circuit

- breaker on site.
- **Electrical connection**
 Terminal box protection class IP55 mounted to casing
- **Speed control**
 Controlled performance curves upon request. All types are speed controllable by frequency inverter (except pole-switching and explosion-proof). The planned use of a frequency inverter without sine filter must be stated when ordering. This requires a change of fan design and possible additional costs.
- **Installation**
 Installation in any position. Ensu-

- re that the motor drainage holes face downwards.
- **Dimensions**
 Pole-switching and explosion-proof types may vary from adjacent information. Motor length may vary. Note protrusion dimension B.
- **Noise levels**
 The sound power levels are indicated by means of frequency and as sum levels above the performance curves.

The flow volume and pressure increase information is required to determine the pitch angle.
¹⁾ Dahlander winding ²⁾ For the entire pitch angle performance curve, also higher depending on the operating point. ³⁾ Incl. full motor protection

Accessories for AVD RK Description see page 161 ff.

a) Motor-operated back-draught shutter see main Helios catalogue b) Types for explosion-proof fans see below

Information	Page
Techn. description	26 ff.
Project planning information	13 ff.
Special design	
Alternative voltage, protection class, air flow direction, higher air flow temperature and acid protection upon request.	

Other accessories	Page
b) Access. for ex-proof fans	
Flanged flexible connector	
Type STS 900 Ex	No. 02512
Mounting accessories	158 ff.
Attenuators	166
Gas warning systems, switch and control technology	168 ff.
Frequency inverter	178 ff.
