

A technical drawing of a shaft with two different diameters. The shaft is oriented vertically. The upper section has a larger diameter, and the lower section has a smaller diameter. The transition between the two diameters is a chamfered edge. Dimension lines with arrows indicate the diameters of each section. The larger diameter is labeled as $\varnothing 674$ and the smaller diameter is labeled as $\varnothing 639$ i.L.

$\varnothing 674$

$\varnothing 639$ i.L.
